

### 6330 California Career Resource Network

The California Career Resource Network (CalCRN), formerly the California Occupational Information Coordinating Committee, provides youth and adults with the career development information and resources they need to enable them to reach their career goals. The primary duty of the CalCRN is to develop and distribute career information, resources, and training materials to middle school and high school counselors, educators, and administrators in order to ensure that students are provided the guidance and educational tools needed to help them achieve their career goals. Effective July 1, 2010, CalCRN functions, positions, and resources were shifted to the State Department of Education.
