

Natural Resources

Natural Resources Agency programs protect and restore California's diverse natural and cultural resources for current and future generations, including state parks, stunning coastlines and lakes, spectacular forests, vast fish and wildlife habitats, rich farmlands and mineral resources. Agency programs also protect the public through suppression of wildfires, construction of levees in the Central Valley, and permitting environmentally safe energy power plants. These programs not only contribute to the state's unique quality of life, but also are critical to sustaining a vibrant economy.

3100 California Science Center

The Science Center, the Office of Exposition Park Management and the California African American Museum (CAAM), are located in Exposition Park, a 160-acre tract in south Los Angeles, which is owned by the state. For budget purposes, these three departments are collectively known as the California Science Center.

The mission of the Science Center is to stimulate curiosity and inspire science related learning. The Office of Exposition Park Management provides long-term leadership in the development and implementation of park usage policy and day-to-day management, operation and promotion of the park for its tenants and the public. The mission of CAAM is to research, collect, preserve and interpret for public enrichment, the history, art and culture of African Americans with a multi-layered focus that is global, national, and local with special emphasis on California and the western United States.

PROGRAM DESCRIPTIONS

2300 - EDUCATION

Attracting over 2 million guests annually, the Science Center-Education represents one of California's premier educational and family destinations. Governed by a nine-member Board of Directors appointed by the Governor, the Science Center develops and features award-winning exhibits and internationally renowned education programs.

Hands-on educational exhibits and programs focus on science, math, technology, and conservation which explore biological processes of humans, animals, plants, the Earth's ecosystems, habitats, and geophysical processes, as well as engineering, communications, and transportation, on land and in space. In 2012, the Space Shuttle Endeavour was moved to its temporary home - the Samuel Oschin Pavilion - while design and construction of the Science Center's Air and Space Center - its permanent home - is completed.

In addition, the Science Center operates a 3D IMAX theater which features science related films and documentaries. The Center for Science Learning offers professional development programs to improve math and science skills of teachers and other educators. The Science Center School is a K-5 science, math and technology focused neighborhood charter school. As a Title 1 school, it serves one of the more underserved and economically challenged communities in South Los Angeles. The school's instructional programs and teacher training meet California science standards

The Science Center's mission values accessibility and inclusiveness and strives to inspire interest in science among those traditionally underrepresented in science, math, technology and engineering. The Science Center receives significant funding support for exhibit development and capital outlay projects from the California Science Center Foundation.

2305 - EXPOSITION PARK MANAGEMENT

The Office of Exposition Park Management (OEPM) is responsible for public safety operations, parking services management and overall park beautification maintenance. In addition, OEPM administers supervision and coordination of park-wide events, and facilitates communication efforts between state, city, and county entities represented within the park. OEPM is responsible for the negotiations of ground leases and agreements which impact the state's interest, including development of park facilities and future infrastructure improvements. Exposition Park enriches the internal park community and in addition provides green space and recreational areas for the surrounding neighborhood.

2310 - CALIFORNIA AFRICAN AMERICAN MUSEUM

The California African American Museum (CAAM) is governed by a seven-member board of directors appointed by the Governor. CAAM delivers its mission to the public through its history and art collections; permanent, self-curated, temporary and traveling exhibits; and, innumerable programs and workshops, lectures, seminars, films, educational services, standards-based curriculums, and cultural presentations. CAAM facilitates the delivery of these services through dozens of outreach efforts including school bus services, docent led tours and creative workshops through Buses & Docents; CAAM Technology Arts Program; employment skill development for high school students under Young Docents at CAAM; Conversations at CAAM; Young Voices at CAAM; literacy promotion through Heads are Turning Children are Learning; Professional Educator's Open Houses; Films & Shorts at CAAM; off-site workshops and professionally led classes in Learning Without Boundaries; and, family and cross-cultural community presentations through Target Sundays at CAAM. For these and many other services CAAM is also generously supported with private contributions and volunteer resources from its 501(c)(3) partner Friends, the Foundation of the California African American Museum.

PROGRAM DESCRIPTIONS

2320 - TAHOE REGIONAL PLANNING AGENCY

A congressionally approved compact between California and Nevada established the Tahoe Regional Planning Agency. The Agency coordinates planning and regulations that preserve and enhance the environment and resources of the Lake Tahoe Basin. Funding for the Agency is shared between Nevada (one-third) and California (two-thirds).

2325 - YOSEMITE FOUNDATION PROGRAM

This program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. The funds are allocated by the State Controller for restoration and preservation projects in Yosemite National Park.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.
 † Past year appropriations are net of subsequent budget adjustments.

3110 Special Resources Programs - Continued

2330 - SEA GRANT PROGRAM

The Sea Grant Program encourages research and education in the fields of marine resources and technology. This program provides funding to the University of California and University of Southern California to match federal funds for selected projects under the federal Sea Grant Program.

3125 California Tahoe Conservancy

The California Tahoe Conservancy's mission is to lead California's efforts to restore and enhance the extraordinary natural and recreational resources of the Lake Tahoe Basin. The Conservancy achieves its mission by developing and implementing programs that acquire environmentally sensitive land, provide grants or directly fund soil erosion prevention and watershed restoration, improve stream environments and wildlife habitats, and improve water quality. The Conservancy also balances these activities with programs to improve public access and recreational opportunities in an environmentally sound manner by acquiring lakefront property, constructing pedestrian and bike paths, and building public access facilities.

The Conservancy is also a key implementing agency of the Environmental Improvement Program (EIP) which is a 1997 agreement between California, Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities to commit \$908 million over 10 years to a list of acquisition and capital improvement projects needed to achieve environmental goals in the Basin. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and inclusion of new projects. The 2008-2018 EIP was finalized in July 2009.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Tahoe Conservancy's Capital Outlay Program, see "Infrastructure Overview."

PROGRAM DESCRIPTIONS

2340 - TAHOE CONSERVANCY

The California Tahoe Conservancy performs day-to-day management and maintenance of the lands it has acquired, as well as the completion of corrective and restorative actions needed to fully achieve the purposes of the acquisitions. It is envisioned that the Conservancy ultimately will acquire up to 6,000 environmentally sensitive parcels under existing criteria. To date nearly 4,900 parcels, totaling nearly 6,500 acres, have been acquired. These parcels are being managed to maintain and/or restore their natural functions, provide for public safety, and provide for open spaces.

The Conservancy has also acquired additional parcels where more extensive site improvements or more active ultimate uses are envisioned. For example, the management objectives for the public access and recreation lands are to allow: for suitable and appropriate interim uses during the site improvement planning and implementation process, design and construct public access facilities, and arrange for long-term management.

In addition, high rates of tree mortality (25 percent-40 percent) throughout the Basin have required special emphasis on forest resource management activities to reduce fuel hazards, remove hazardous conditions, start corrective actions to manage forest health through a variety of means, and limit public liability. Activities include the removal of diseased, dead and dying trees to promote forest health while reducing the risk of fire that would destroy property and habitat, threaten lives, and diminish the water quality and other resource values of Lake Tahoe.

The program also provides grants to local governments to improve the Lake's water quality by controlling soil erosion caused by existing development, primarily along roadways, and to treat sediment-laden runoff. These projects involve acquisitions and site improvements such as the revegetation of barren slopes, and building roadside and storm drainage facilities and sediment basins.

2345 - ACQUISITION AND SITE IMPROVEMENT PROJECTS

This program acquires environmentally sensitive lands and provides public access and recreation by enhancing existing facilities and establishing new public access sites along the Lake and in natural areas. The program also preserves a wide

INFRASTRUCTURE OVERVIEW

The Conservancy manages programs to help protect Lake Tahoe's water quality and conserve wildlife habitat, watershed areas, and public access on the California side of the Lake Tahoe Basin. The Conservancy is a primary implementer of the State of California's responsibilities under the Environmental Improvement Program (EIP) for the Lake Tahoe Basin - a 1997 agreement between California, Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and inclusion of new projects. The 2008-2018 EIP was finalized in July 2009. Based on the 2008-2018 EIP, the Conservancy has identified its own EIP project list for new funding.

3210 Environmental Protection Program

The California Environmental Protection Program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. Revenues are deposited in the California Environmental License Plate Fund. Funds expended pursuant to Division 13.5 of the Public Resources Code must have one or more of the following purposes:

- The control and abatement of air pollution, including all phases of research into the sources, dynamics and effects of environmental pollutants.
- The acquisition, preservation, restoration, or any combination thereof, of natural areas or ecological reserves.
- Environmental education, including formal school programs and informal public education programs.
- Protection of nongame species and threatened and endangered plants and animals.
- Protection, enhancement, and restoration of fish and wildlife habitat and related water quality, including review of the potential impact of development activities and land use changes on that habitat.
- The purchase, on an opportunity basis, of real property consisting of sensitive natural areas for the state park system and for local and regional parks.
- Reduction or minimization of the effects of soil erosion and the discharge of sediment into the waters of the Lake Tahoe region, including the restoration of disturbed wetlands and stream environment zones.

The appropriations and expenditures for programs and projects funded from the California Environmental License Plate Fund are contained in the budgets of the various state boards, commissions and departments.

3340 California Conservation Corps

The California Conservation Corps (CCC) provides young women and men the opportunity to work hard responding to fires, floods and other disasters, restoring California's environment, and installing clean energy and energy conservation measures. Through their service, the members of the CCC gain life, work, and academic skills to become strong workers and citizens.

In addition to the CCC, there are also 14 certified local conservation corps located in various communities throughout the state. These local corps perform workforce development and training activities with youth.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the CCC's Capital Outlay Program, see "Infrastructure Overview."

PROGRAM DESCRIPTIONS

2360 - TRAINING AND WORK PROGRAM

This Program focuses on four areas:

- **Natural Resource Work:** Corpsmembers protect and enhance the state's natural resources through landscaping, park development, trail construction, tree-planting, fire hazard reduction, energy auditing and retrofitting, irrigation system installation, watershed improvement, wildlife habitat enhancement, removal of nonnative vegetation, fence construction and meadow restoration.
- **Emergency Response:** Corpsmembers are dispatched to fires, assisting with initial attack, mop-up and logistical support; floods, filling sandbags, reinforcing levees and stabilizing hillsides; earthquakes, removing hazards and staffing disaster assistance centers; oil spill clean up; snow removal; search-and-rescues; pest infestation eradication; and homeland security assistance.
- **Corpsmember Education:** Corpsmembers are provided opportunities to advance their academic skills while in the CCC through local adult and charter schools, and community colleges.
- **Corpsmember Development and Training:** The CCC stresses both work and service ethic, which includes teamwork, self-discipline, leadership, and giving back to California. Corpsmembers learn conservation principles and career planning. The CCC also offers training in trail building, first aid, and firefighting certification, which can lead to internship opportunities with various employers in California.

INFRASTRUCTURE OVERVIEW

The California Conservation Corps (CCC) operates 25 facilities statewide, including 7 residential facilities and 18 non-residential satellite centers in urban and rural areas. These facilities help the CCC achieve its mission of providing employment, training, and educational opportunities to young men and women, and assisting federal, state and local agencies, and nonprofit entities with the conservation of California's natural resources.

3360 Energy Resources Conservation and Development Commission

The Energy Resources Conservation and Development Commission (Energy Commission) is responsible for ensuring a reliable supply of energy to meet state needs while protecting public health, safety, and the environment. Activities include: permitting energy facilities; designating transmission line corridors; assessing current and future energy demands and resources; developing energy efficiency standards; implementing programs to reduce wasteful and inefficient use of energy; stimulating development of alternative sources of energy such as wind, solar, biomass, and non-petroleum transportation fuels; analyzing transportation fuel supplies, prices, and trends; and maintaining capacity to respond to energy emergencies.

PROGRAM DESCRIPTIONS

2380 - REGULATORY and PLANNING PROGRAM

The Regulatory and Planning program facilitates markets in providing adequate statewide energy supplies. The program develops long-range projections for future energy supplies and demand, and maintains current information on statewide electricity generation, transmission, natural gas, and fuels markets. Additionally, this program certifies power plant sites, designates transmission line corridors, and monitors new energy facilities and fuel infrastructure for compliance and supply and distribution adequacy consistent with state energy policies. The Electricity Supply Analysis program develops long-range projections for future energy supplies and demand, and maintains current information on statewide electrical generation, consumption and peak demand, natural gas, and distributed generation. The program develops state energy policy based on the economic, financial, security, safety, and environmental implications of supply, demand, and price/cost assessments, and monitors energy markets for competitive prices and potential market abuses.

2380010 - Power Plant Site Certification and Transmission Line Corridor Designation Program

The Power Plant Site Certification and Transmission Line Corridor Designation program is responsible for the following: reviewing power plant siting applications 50 megawatts and larger; ensuring power plant developers comply with conditions of certification and all applicable laws and regulations when constructing and operating power plants; reviewing petitions to amend siting decisions; reviewing applications for designation as transmission line corridors; evaluating constraints and opportunities for energy resource development; and analyzing reliability, efficiency, and environmental performance issues related to power plants and the state electricity transmission grid.

2380019 - Electricity Analysis

The Electricity Analysis program is responsible for evaluating current and future electricity supply market trends and infrastructure needs; estimating costs of various generation types; assessing the adequacy of electricity supplies; and analyzing regulations and environmental issues related to electricity. Additionally, this program addresses the distribution system and its relationship to distributed generation, including planning and interconnection barriers and provides information and recommendations to state agencies, electricity market participants, and the public. The natural gas program component is responsible for evaluating current and future natural gas market trends and infrastructure needs, assessing the adequacy of natural gas supplies, analyzing regulations and environmental issues related to natural gas, and leading interagency work groups to monitor short-term natural gas market trends.

2380028 - Energy Projects Evaluation and Assistance Program

This program is responsible for providing technical assistance, grants, and loans to improve energy efficiency and reduce operating costs of schools, colleges, local jurisdictions, hospitals, and public care facilities.

2385 - ENERGY RESOURCES CONSERVATION PROGRAM

The Energy Resources Conservation program objectives include reducing overall energy use and decreasing peak electricity demand by identifying energy efficiency opportunities and developing and implementing programs and standards for efficiently using energy in all sectors.

2385010 - Building and Appliances Program

The Building and Appliances program objectives include reducing consumer and business energy use and peak demands by developing and implementing strategies and minimum efficiency standards for new and existing residential and nonresidential buildings, appliances, and equipment. The Building and Appliances program provides technical assistance on building standards and enforcement support to the building industry and building departments. Further, the program maintains a database of energy efficiency appliances and equipment, and enforces compliance with the appliance efficiency standards.

2385028 - Demand Analysis

The Demand Analysis program is responsible for collecting and analyzing electricity and natural gas consumption data used

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3360 Energy Resources Conservation and Development Commission - Continued

to prepare energy demand forecasts, forecasting peak and total energy consumption by sector, and estimating the amount of energy conserved by existing and proposed program activities.

2390 - DEVELOPMENT PROGRAM

The Development Program focuses on transportation and alternatives to conventional fossil fuels. The mission is to ensure that adequate and reliable transportation energy is provided to the California transportation sector while balancing economic, public health, safety, and environmental consequences. Additionally, the program also conducts research, development, demonstration, commercialization, and deployment activities on energy efficiency, renewable and advanced energy technologies, and alternative and renewable fuel and advanced vehicle technologies to ensure future energy supplies are cost effective, secure, and reliable; enhance environmental quality; and promote state and local economic development. The program provides technical assistance, financial assistance, direct technology research and demonstration, technology forecasting, technology analysis and evaluation, and information transfer.

2390010 - Transportation Technology and Fuels

The Transportation Technology and Fuels program provides financial incentives to develop and deploy innovative technologies that transform California's fuel and vehicle types to help attain the state's climate change policies. The program goal is the development and deployment of low-carbon alternative fuels and advanced vehicle technologies in the marketplace, without adopting any one preferred fuel or technology. The program provides analyses and recommendations to guide state energy policy and legislation to achieve climate change objectives, reduce petroleum consumption, and promote economic development. The program also monitors, analyzes, and reports on transportation fuel supply and production, fuel infrastructure issues, transportation fuel demand trends, and responds to energy and fuel shortages and emergencies.

2390019 - Research and Development

The Research and Development program provides analysis and investment recommendations for research, demonstration, and development innovations addressing current and emerging energy system requirements. The program supports projects that complement other private or public sector investments. The program goal is to develop, and help bring to market, energy solutions providing increased environmental benefits, greater system reliability, and lower energy costs. Benefits are provided to Californians through investments in energy efficiency and demand response, advanced generation, energy storage, strategies to reduce or mitigate energy-related environmental impact, transportation technologies, and energy transmission and distribution system improvements.

2390028 - Renewable Energy

The Renewable Energy program fosters growth of the renewable energy market by providing rebates to purchasers of renewable products, tracking and verifying renewable energy transactions, and enforcing compliance with state renewable energy mandates.

2395 - LOAN REPAYMENT PROGRAM

The Loan Repayment program consists of Conservation and Development program loan repayments deposited into the following accounts: State Energy Conservation Assistance Account; Local Jurisdiction Energy Assistance Account; Energy Technologies Research, Development and Demonstration Account; and Local Government Geothermal Resources Revolving Subaccount and Clean and Renewable Energy Business Financing Revolving Loan Fund.

3370 Renewable Resources Investment Program

The Renewable Resources Investment Program receives 30 percent of the royalties deposited in the Geothermal Resources Development Account. The state receives these monies from the federal government for geothermal leases. Funds from the Bosco-Keene Renewable Resources Investment Fund may be expended only for the following: fish habitat improvements; forest resource improvements; urban forestry projects; agricultural soil drainage and soil erosion programs; agricultural, industrial and urban water conservation; wildland fire protection; and coastal resource enhancement projects. Specific project and program expenditures for the Renewable Resources Investment Program are included in the budgets of various departments.

3460 Colorado River Board of California

The Colorado River Board protects California's rights and interests in the water and power resources of the Colorado River system. The Board works with: Colorado River Basin states (Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming), federal agencies, other state agencies, six local agencies (Palo Verde Irrigation District, Imperial Irrigation District, Coachella Valley Water District, Metropolitan Water District of Southern California, San Diego County Water Authority, Los Angeles Department of Water and Power), Congress, the courts, and Mexico. Its activities include analyses of engineering, legal and economic matters concerning the Colorado River resources of the seven basin states and the 1944 United States-Mexico Water Treaty obligation to deliver Colorado River water to Mexico.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

PROGRAM DESCRIPTIONS

2420 - GEOLOGIC HAZARDS AND MINERAL RESOURCES CONSERVATION

This program evaluates, assesses and maps the State's geologic and seismologic hazards, such as earthquakes, landslides, tsunamis and volcanic eruption threats, and hazardous minerals exposures, in order to protect the public health and safety and the natural environment; analyzes the State's mineral assets and maps its mineral resources. Information is used by Federal, State, and local government agencies, industries and individual businesses, and the public to make informed decisions about land use, seismic safety, and mineral development.

2425 - OIL, GAS, AND GEOTHERMAL RESOURCES

This program regulates the drilling, operation, and abandonment of oil, natural gas, and geothermal wells to protect the environment, prevent pollution, and ensure public safety. The state is fully reimbursed for program expenditures by annual assessments and fees on the respective industries. Approximately 500 companies operate over 88,000 wells in California for the production of oil, natural gas, and geothermal resources.

2430 - LAND RESOURCE PROTECTION

This program protects agricultural farmland and open space through various financial incentives. Under the Williamson Act, landowners who agree to keep their property undeveloped for at least ten years receive lower property tax assessments. The California Farmland Conservancy Program provides grants to local governments and nonprofit land trusts for the acquisition of agricultural conservation easements that permanently remove development rights, and therefore development pressure, from agricultural lands. The Farmland Mapping Program of the Land Resource Protection program develops maps, statistics, and reports relating to farmland conversion, farmland inventory and land protection to assist in local land use decisions.

2435 - MINE RECLAMATION

This program regulates active surface mining operations and monitors local lead agencies to ensure compliance with the Surface Mining and Reclamation Act of 1975. It assists cities, counties, state agencies, and mine operators in their efforts to reclaim mined lands to beneficial uses. This program also compiles an inventory of the state's estimated 47,000 abandoned mines and remediates abandoned mine hazards to protect public safety.

2440 - STATE MINING AND GEOLOGY BOARD

The Board serves as a regulatory and policy body for the State's geology, geologic and seismologic hazards, conservation of mineral resources, and reclamation of mined lands. The Department's California Geological Survey and the Office of Mine Reclamation provide the engineering, technical expertise, and support functions for the reports, plans, and maps which the Board approves. The Board also serves as an appeals body for mining operations that have been issued notices of violations or orders to comply, and disputes with local lead agencies.

3540 Department of Forestry and Fire Protection

The California Department of Forestry and Fire Protection (CAL FIRE) serves and safeguards the people and protects the property and resources of California.

CAL FIRE provides all hazard emergency - fire, medical, rescue and disaster - response to the public and provides leadership in the protection of life, property and natural resources.

CAL FIRE safeguards the public through: engineering; research, development and adoption of regulations; fire and life safety programs; fire prevention, law enforcement, and public information & education; resource protection; and emergency response.

CAL FIRE limits the damage caused by fires, disasters, environmental degradation, and related emergencies by employing diverse yet complimentary efforts including: training California's fire service professionals; public education and prevention awareness; responsible stewardship of our natural resources; and natural resource and emergency management.

CAL FIRE's highly trained professionals and leaders cultivate mutually beneficial and cost-effective relationships with all levels of government and the private sector to enhance the efficiency and effectiveness of public safety programs and mitigate emergencies in the urban, rural, and wild land areas of California.

CAL FIRE promotes a culture of innovation, accountability, integrity, diversity, planning, workplace safety, and teamwork to foster an efficient and effective organizational environment.

Since Department programs drive the need for infrastructure investment, each Department has a related capital outlay program to support this need. For the specifics on CAL FIRE's Capital Outlay Program, see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- Helicopters-The Budget includes provisional language to allow CAL FIRE to proceed with procurement of 12 replacement helicopters. Fleet replacement will enhance CAL FIRE's initial attack capabilities and improve its ability to contain wildfires quickly.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3540 Department of Forestry and Fire Protection - Continued

- Hiring and Training-The Budget includes \$7.3 million General Fund and \$1.6 million reimbursements to expand CAL FIRE's training academy and allow for adequate position coverage while new permanent hires attend basic fire control classes at the academy.

PROGRAM DESCRIPTIONS

2460 - STATE FIRE MARSHAL

The State Fire Marshal is responsible for the statewide protection of life and property through the development and application of fire protection engineering, education and enforcement. Activities include the following:

- Code Development and Analysis: Objectives include the development and adoption of codes relating to fire/life safety used statewide by local fire and building authorities. The Division fosters, promotes and develops ways and means of protecting life and property against fire and panic in many ways, including the adoption and implementation of regulations for statewide application. The Code Development and Analysis Division prepares the California State Fire Marshal's fire and life safety regulations and building standards for review and adoption into the California Code of Regulations, Titles 19 and 24. The Division assists with the application of state laws, regulations, and code enforcement relating by a city, county, fire departments or fire districts, and building departments. The Division also reviews all of California's regulations relating to fire and life safety for relevancy, necessity, conflict, duplication and/or overlap.
- Fire and Life Safety: This program is the main entity within the department for the application of laws and regulations related to fire prevention and life safety. This is achieved through code compliance inspections of new and existing buildings and plan review and construction inspections of State-Owned and State-Occupied projects as mandated by Health and Safety Code Sections 13108, 13143, 13145 and 13146. The SFM is responsible for fire & life safety in over 28,000 State-Owned and state-occupied facilities which include, State Prisons, Conservation Camps, Community Correctional facilities, State Mental Hospitals, State Developmental Centers, California State University and University of California campuses, California Agricultural District.
- Fire Engineering and Arson and Bomb: The Fire Engineering Division administers licensing programs and provides services for product evaluation, certifications and listings. The division also oversees the Arson and Bomb Unit which has the responsibility to dispose seized illegal fireworks and conduct fire/explosion investigations and licensing enforcement. The division is responsible for 12 statewide programs, which includes the Building Materials Listing; Portable Fire Extinguishers; Flame Retardant Chemicals and Fabrics; Vapor Recovery; Automatic Fire Extinguishing Systems; Fire Safe Cigarettes; Certified Unified Program Agency (CUPA); Licensing Enforcement and Inspection; Lab Accreditation; Fireworks; and Motion Picture and Entertainment, Arson and Bomb Investigation and Fireworks Disposal. The Fire

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3540 Department of Forestry and Fire Protection - Continued

Engineering Division's primary functions are licensing, product approval, fire/explosion investigations and licensing enforcement.

- Pipeline Safety: This program regulates approximately 4,800 miles of intrastate hazardous liquid pipelines that transport crude oil and refined products (e.g., gasoline, diesel, jet fuel, etc.) between offshore platforms, production fields, refineries and marine terminals. Regulated pipelines do not include those within production fields, marine terminals or refineries.
- State Fire Training: Administers the California Fire Service Training and Education System and the Fire Service Training and Education Program for federal, state and local firefighters. The program oversees a California Fire Academy System for over 40 training academies that represent a partnership with the fire departments, community colleges and the State Fire Marshal. State Fire Training administers a professional certification system for firefighters and chief officers and receives program guidance from the State Board of Fire Services

2465 - FIRE PROTECTION

CAL FIRE provides fire protection to keep damages to life, property and natural resources within social, political and economic constraints. The objective is to quickly and aggressively attack all fires in areas where CAL FIRE has assumed primary direct protection responsibility by virtue of law, contract or agreement until the fire is under control. The level of initial attack and follow-up action is relative to values threatened and control difficulty with the goal to control all unwanted fires within the first burning period.

2465010 - Fire Prevention:

This program is responsible for implementation of the Strategic Fire Plan, fire engineering, law enforcement, fire suppression cost recovery and fire prevention education. This program focuses on the most effective methods, materials and procedures to mitigate hazard and to enforce pertinent laws that deter and mitigate fires. More specifically, efforts focus on what needs to be done before a wildland fire starts in order to reduce the costs of fire fighting, property loss, injury to the public and fire fighters and damage to the environment.

2465019 - Fire Control:

The objective of this program is to detect, respond and suppress wildland fires in or threatening the State Responsibility Area. The heart of the effort is an aggressive initial attack strategy. CAL FIRE's goal is to contain 95 percent of all wildfires to 10 acres or less. This is achieved through detection, ground attack, air attack and mutual aid using fire engines, fire crews, bulldozers, helicopters and fixed wing aircraft.

2465028 - Cooperative Fire Protection:

CAL FIRE provides a full range of fire protection services to local, county, state and federal agencies throughout California through the administration of approximately 150 cooperative government agreements. Additionally, there are six long standing agreements wherein counties provide wildland fire protection on behalf of the Department.

2465037 - Conservation Camps:

CAL FIRE, in cooperation with the Department of Corrections and Rehabilitation, Divisions of Adult Operations and Juvenile Justice, operates 39 conservation camps throughout the state which house 196 fire crews. These crews provide one of the primary labor forces for firefighting, emergency response, and conservation related work projects.

2465046 - Emergency Fire Suppression:

CAL FIRE incurs additional emergency fire suppression expenditures when budgeted initial attack forces are unable to cope with a wildland fire within the initial attack period. Portions of these costs may be reimbursed in the fiscal year the expense was incurred or in a future fiscal year via Fire Management Assistance Grants provided by the Federal Emergency Management Agency (FEMA) or through cost shares provided by other government entities. In addition, CAL FIRE may recover portions of this cost through civil cost recovery actions authorized by state statutes.

2470 - RESOURCE MANAGEMENT

California's state and private forest, range, watershed lands and urban forests provide multiple human, climate and environmental benefits. The objective of this program is to maintain and enhance those benefits and to minimize damage to these resources from natural catastrophes and human development. Objectives are met by regulation of timber harvesting, coordination of climate related activities for the forest sector, technical assistance to non-industrial landowners, operation of state demonstration forests, operation of forest nurseries, vegetation management projects and administration of federal forestry assistance programs.

2470010 - Resources Protection and Improvement:

The objective of this program is to improve forest lands and urban forests. Activities include the detection, evaluation and control of forest pests; growing and selling tree seedlings for reforestation, carbon sequestration, and soil erosion control; maintenance of a native conifer seed bank; advice and assistance to non-industrial forest landowners on management of forests and improved harvesting and conservation practices; research on and demonstration of sustainable forestry in state forests; implementation of the California Forest Improvement Act of 1978; technical assistance and grants to foster the environmental, social, and economic benefits of urban forests consistent with the California Urban Forestry Act of 1978; and purchase and monitoring of working forest conservation easements per the California Forest Legacy Act of 2008. In the area of vegetation management, assistance is provided to public and private landowners to achieve land use objectives by reducing damage from wildland fires, increase wildlife habitat, increase productivity of forest and rangelands, improve water yields and air quality, reduce carbon emissions from wildland fires, increase firefighter safety, and maintain desirable ecosystems. CAL FIRE cooperates with federal, state and local agencies, local organizations, and private property owners to develop and achieve land use objectives. Activities include removal, rearrangement, conversion, or improvement of vegetation using various treatment measures such as prescribed fire and mechanical, manual, and biological methods.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3540 Department of Forestry and Fire Protection - Continued

2470019 - Forest Practice Regulations:

The objective of this program is to maximize sustained production of high-quality timber products while protecting soil, water, wildlife, recreation and other values associated with forest land. Forest Practice activities include the review and permitting of commercial timber harvesting operations on nonfederal timberlands, enforcing state forest practice laws and regulations, and monitoring compliance and the effects of timber operations on forest productivity, water quality, watersheds, soils, botanical resources, wildlife, fisheries, greenhouse gases and other environmentally sensitive resources. The Program is also responsible for issuing licenses to timber operators (LTOs), providing LTO training and education, and assisting the Board of Equalization-Timber Tax Division in their administration of taxes on timber and timberland. Forest Practice Program staff also assist the Board of Forestry and Fire Protection, and facilitate and participate in monitoring the effectiveness of the Board's forest practice regulations.

2470028 - Forest Resource Inventory and Assessment:

The objective of this program is to perform a periodic assessment of California's forest and rangeland resources. Activities include maintaining and distributing mission-critical datasets for fire planning, emergency incident support and meeting certain regulatory requirements. In addition, the program provides extensive technical and public information for statewide fire threat, fire hazard, watersheds, socio-economic conditions, environmental indicators and urban forestry.

2470037 - Professional Foresters Registration Program:

The Office of Professional Foresters Registration is a statutorily authorized program within the State Board of Forestry and Fire Protection. The program is responsible for the licensing and regulation of all persons who practice forestry or rangeland management on non-federal, state and private lands in California pursuant to the Professional Foresters Law of 1972.

2475 - BOARD OF FORESTRY AND FIRE PROTECTION

The California State Board of Forestry and Fire Protection (Board) is a Governor-appointed body within CAL FIRE. The Board is responsible for developing the general forest policy of the State, for determining the guidance policies of the CAL FIRE, and for representing the State's interest in Federal land in California. Together, the Board and CAL FIRE work to carry out the California Legislature's mandate to protect and enhance the State's unique forest and wildland resources. The Board's statutory responsibilities are:

- Establish and administer forest and rangeland policy for the State of California;
- Protect and represent the state's interest in all forestry and rangeland matters;
- Provide direction and guidance to the Director and CAL FIRE on fire protection and resource management;
- Deliver a comprehensive regulatory program for forestry and fire protection;
- Conduct its duties to inform and respond to the people of California.

2480 - DEPARTMENT OF JUSTICE LEGAL SERVICES

The objective of the Department of Justice Legal Services program is to account for the cost of legal services provided by the Department of Justice to the California Department of Forestry and Fire Protection.

9900100 - ADMINISTRATION

Departmental administration provides executive leadership, policy direction and a variety of program support services necessary for the successful completion of the Department's mission. CAL FIRE headquarters provides leadership through the executive office and through central services in accounting, budgeting, business services, legal, human resources, information technology, program accountability and program and systems analysis. CAL FIRE field units provide localized general support services in a variety of locations throughout in the state.

3540 Department of Forestry and Fire Protection - Continued

INFRASTRUCTURE OVERVIEW

The Department of Forestry and Fire Protection operates over 500 facilities statewide, including 228 forest fire stations, 112 telecommunications sites, 39 conservation camps, 21 ranger unit headquarters, 16 administrative headquarters, 13 air attack bases, 9 helitack bases, 8 state forests, 2 nurseries, a training academy, and various other miscellaneous facilities. These facilities support fire protection, the Office of the State Fire Marshall, and resource management efforts for over 31 million acres of state and privately-owned wildlands throughout the state.

3560 State Lands Commission

The three-member State Lands Commission consists of the Lieutenant Governor, the State Controller, and the Governor's Director of Finance. The Commission manages, as a trustee for the people of the state, California's sovereign public trust lands and resources, which the state received upon admission into the Union in 1850. It also manages certain other lands subsequently conveyed to the state by the federal government. The Commission serves the people of California by providing stewardship of the lands, waterways, and resources entrusted to its care through economic development, protection, preservation, and restoration of those lands and resources. Since its inception in 1938, the Commission has generated over \$11 billion in revenues to the General Fund.

Sovereign lands include the beds of all navigable waterways, including non-tidal rivers, streams and lakes, and tide and submerged lands within tidal rivers, sloughs, bays and the Pacific Ocean extending from the mean high tide line seaward to the three-mile offshore limit. Other lands acquired from the United States include swamp and overflow lands and state school lands. Nearly all of the millions of acres of swamp and overflow lands were conveyed into private ownership in the 19th century. Likewise, of the five and one-half million acres of school lands, all but 487,000 acres were also conveyed to private parties. All lands and reserved mineral interests remaining under the Commission's jurisdiction total more than four and one-half million acres.

PROGRAM DESCRIPTIONS

2560 - MINERAL RESOURCES MANAGEMENT

The State Lands Commission oversees efficient development of mineral resources that are located on state lands. The Commission also monitors the development and operation of the Long Beach tidelands oil field. The objectives of the Mineral Resources Management Program are to manage the orderly extraction of oil, gas, geothermal resources and other minerals; maximize the revenue generated consistent with the best interests of the state, and ensure that public safety and environmental protection are maintained at the highest possible standards in the development of these resources.

2565 - LAND MANAGEMENT

The State Lands Commission manages all ungranted state sovereign lands consistent with the common law public trust doctrine and prudent land use and management practices. The Commission issues leases and permits for the use and occupation of public trust lands under its jurisdiction based upon environmental, economic, health, safety and public benefit considerations. The program also manages all state school lands to ensure the maximum economic return to the State Teachers' Retirement System. The Commission also oversees the administration of public trust lands legislatively granted to

local jurisdictions to manage on behalf of the State, including all the major ports in the State.

2570 - MARINE FACILITIES DIVISION

The State Lands Commission adopts rules, regulations, and guidelines for marine oil terminals within California providing for the best achievable protection of the public health and safety and the environment. The Commission's Marine Facilities Management Program monitors the offloading of oil at marine terminals, inspects all marine facilities and reviews and approves all marine oil terminal Operations Manuals. The Program also administers Chapter 31F of the California Building Code to ensure that marine oil terminals are fit for purpose. In addition, the Marine Facilities Management Program implements the state's Marine Invasive Species Program to prevent the introduction of non-indigenous species into California waters through ship-transmitted vectors. The program conducts scientific research, develops rules and regulations to implement the Marine Invasive Species Act, and physically inspects oceangoing vessels to ensure compliance.

9900100 - EXECUTIVE AND ADMINISTRATION

The Executive and Administration program provides management, policy direction and administrative support to the line programs of the Commission.

3600 Department of Fish and Wildlife

The mission of the Department of Fish and Wildlife is to manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

This includes habitat protection and maintenance in a sufficient amount and quality to ensure the survival of all species and natural communities. The Department is also responsible for the diversified use of fish and wildlife including recreational, commercial, scientific, and educational uses.

Since department programs drive the need for infrastructure investment, the Department has a related capital outlay program to support this need. For the specifics on the Department of Fish and Wildlife's Capital Outlay Program, see "Infrastructure Overview."

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

LEGAL CITATIONS AND AUTHORITY

DEPARTMENT AUTHORITY

California Fish and Game Code Section 700 et seq.

- Listed below are the primary sections of the Fish and Game Code and other State laws that govern the various programs of the Department. Not all sections providing the authority for the programs are listed below.

PROGRAM AUTHORITY

2590-Biodiversity Conservation Program:

Fish and Game Code Sections 703, 703.3, 1000--1002, 1225-1227 Division 2, Chapters 4 4.1 and 4.3, 1600-1616, 1700, Division 2, Chapters 7.5, 7.8, 7.9, 8-12, Division 3, Chapters 1, 1.5, 7 - 13, Sections 3503, 3503.5, 3511, 3513, 3850-3857, 4700, 4900-4903, 5050, 5515, 5520-5522, 5650-5652, 5900-5937, 5980-6028, 6100, 6590-6594, 6900-6924, Division 6, Part 1.7, and 13014.

2595-Hunting, Fishing, and Public Use Program:

Fish and Game Code Sections 200-217.6, 331-332, 355-357, 450-460, 1050, 1054.8, 1120-1150, 1170-1175, 1200-1206, 1525-1530, 1570-1575, 1725-1743, 1801-1802, 2850-2863, Division 4, Parts 1, 2, 3, , Sections 6400-6896, Division 6, Part 2, 3, , Division 6.5 10000-10005, 13007, and Divisions 12, 13, and 13.5.

2600-Management of Department Lands and Facilities:

Fish and Game Code Sections 1120-1126, 1348,-1354, 1500-1506, 1525-1528, 1530, 1580-1587, 1745,, 1745.1 Divisions 7 and 8.

2605-Enforcement:

Fish and Game Code Sections 716-717.2, 850-882, 1006, 1910, 2012, 2018-2021.5, 2116-2127, 2150-2157, 2185-2195, 3049-3054, 3080-3087, 7702-7707,, 8120-8123 and 12000-12166; and Penal Code section 830.2.

2610-Communications, Education, And Outreach Program

Fish and Game Code Sections 210-211, 217.5-217.6, 1005, 1585, 1750-1772, , 3863, 13103.

2615-Spill Prevention and Response:

Government Code Sections 8574.1-8574.10, and Sections 8670.1-8670.95; Fish and Game Code Sections 1008, 1016, 5650-5656, 12002, 12015-12017, and 13010-13013.

2620-Fish And Game Commission

Section 20, Article IV of the California Constitution; Fish and Game Code Division 1, Chapters 1-6, Sections 2070-2079, 2850-2863, 7050-7090, and 10503.

MAJOR PROGRAM CHANGES

- In-Stream Flows-The Budget includes \$1.6 million General Fund to facilitate in-stream flow studies. These studies will determine the minimum quantity of water needed in a given stream to adequately support fish and wildlife. This proposal aligns with the Water Action Plan directive to enhance flows in stream systems that support critical habitat for anadromous fish.

PROGRAM DESCRIPTIONS

2590 - BIODIVERSITY CONSERVATION PROGRAM

This program encourages the preservation, conservation, maintenance, and restoration of wildlife resources, including the Ecosystem Restoration Program, under the jurisdiction and influence of the state. Activities involve the conservation, protection and management of fish, wildlife, native plants, and habitat to ensure maintenance of biologically sustainable populations of those species.

2595 - HUNTING, FISHING, AND PUBLIC USE PROGRAM

This program facilitates diverse and sustainable hunting, fishing (recreational and commercial), trapping, and other public uses and associated economic benefits to the state by conserving and managing game species. Activities include collection and assessment of information on the distribution and abundance of game fish and wildlife to determine appropriate regulations (bag limits, gear restrictions, etc.) and to monitor the effects of those regulations.

2600 - MANAGEMENT OF DEPARTMENT LANDS AND FACILITIES PROGRAM

This program manages Department-owned or leased lands and facilities, including hatcheries, wildlife areas, ecological reserves, fish and wildlife laboratories, and public access areas, to contribute to the conservation, protection, and management of fish and wildlife.

2605 - ENFORCEMENT

This program serves the public through law enforcement, public safety and hunter education. Law enforcement promotes compliance with laws and regulations protecting fish and wildlife resources; investigates habitat destruction, pollution incidents and illegal commercialization of wildlife. Wardens also serve the public through general law enforcement, mutual aid and homeland security.

2610 - COMMUNICATIONS, EDUCATION, AND OUTREACH PROGRAM

This program serves the public through resource conservation education and use activities in the classroom and on public and private lands, community and stakeholder outreach, and the delivery of information and data using a variety of methods including publications, presentations, web applications and media relations.

2615 - SPILL PREVENTION AND RESPONSE PROGRAM

This program prevents damage, minimizes environmental impacts, restores, and rehabilitates California's fish and wildlife populations and their habitats from the harmful effects of oil and other deleterious material spills in marine waters and inland habitats.

2620 - FISH AND GAME COMMISSION

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3600 Department of Fish and Wildlife - Continued

The California Fish and Game Commission ensures the long term sustainability of California's fish and wildlife resources by guiding the ongoing scientific evaluation and assessment of California's fish and wildlife resources; setting California's fish and wildlife resource management policies and ensuring these are implemented by the Department of Fish and Wildlife; establishing appropriate fish and wildlife resource management rules and regulations; and building active fish and wildlife resource management partnerships with individual landowners, the public and interest groups, and federal, state and local resource management agencies.

INFRASTRUCTURE OVERVIEW

The Department of Fish and Wildlife (DFW) manages 730 properties statewide, comprising more than 1 million acres (673,887 acres owned and 471,533 acres owned by other entities, but managed by DFW). Since several state agencies purchase land for the purpose of habitat or wildlife protection, and management responsibilities for these properties are often transferred to the DFW, the acreage of land continues to increase. The properties managed by DFW include the following: 111 wildlife areas, 136 ecological reserves, 139 public access areas, and 20 fish hatcheries.

3640 Wildlife Conservation Board

The Wildlife Conservation Board protects, restores and enhances California's natural resources for wildlife and for the public's use and enjoyment in partnership with conservation groups, government agencies and the people of California.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Wildlife Conservation Board's Capital Outlay Program, see "Infrastructure Overview."

PROGRAM DESCRIPTIONS

2710 - WILDLIFE CONSERVATION BOARD

The Wildlife Conservation Board's three main functions are (1) land acquisition, (2) habitat protection, restoration, and enhancement, including conservation of inland wetlands, riparian habitat, oak woodlands and protection of rangeland, grazing land and grasslands, and (3) development of wildlife-oriented public access and recreational areas.

INFRASTRUCTURE OVERVIEW

Between the years 2000 to 2014, the Wildlife Conservation Board has helped fund and protect 1,121,850 acres of wildlife habitat through a combination of fee and conservation easement acquisitions. In addition, funding has been authorized to enhance and restore approximately 242,600 acres of riparian, wetland, fisheries and other wildlife related habitat areas within the state. The Board also has helped fund and has taken action on 145 projects involving the development of wildlife-oriented public access facilities.

3720 California Coastal Commission

The California Coastal Commission, comprised of 12 voting members appointed equally by the Governor, the Senate Rules Committee, and the Speaker of the Assembly, was created by voter initiative in 1972 and was made permanent by the California Coastal Act of 1976 (Coastal Act). The Coastal Act calls for the protection and enhancement of public access and recreation, marine resources, environmentally sensitive habitat areas, marine water quality, agriculture, and scenic resources, and makes provisions for coastal-dependent industrial and energy development. New development in the coastal zone requires a coastal permit either from local government or the Commission. Local governments are required to prepare a local coastal program (LCP) for the coastal zone portion of their jurisdiction. After an LCP has been reviewed and approved by the Commission as being consistent with the Coastal Act, the Commission's regulatory authority over most types of new development is delegated to the local government, subject to limited appeals to the Commission. The Commission also is designated the principal state coastal management agency for the purpose of administering the federal Coastal Zone Management Act in California and has exclusive regulatory authority over federal activities such as permits, leases, federal development projects, and other federal actions that could affect coastal zone resources and that would not otherwise be subject to state control.

PROGRAM DESCRIPTIONS

2730 - COASTAL MANAGEMENT PROGRAM

The objectives of the Coastal Management Program are to implement coastal resources conservation through planning and regulation. Activities include:

- Reviewing and approval of local coastal programs (LCPs), port master plans, university long-range development plans, and any amendments to such plans, for consistency with the Coastal Act.
- Reviewing coastal development permit applications for new development in areas without a certified LCP, areas of permanently retained jurisdiction (e.g., tidelands, submerged lands, and public trust lands) and limited categories of local coastal development permit actions that can be appealed to the Commission.
- Monitoring and enforcement of coastal development permits.
- Reviewing federal activities for consistency with the Coastal Act.
- Protecting and expanding opportunities for public coastal access and recreation.
- Implementing a coastal water quality protection program.
- Providing technical information and assistance to support effective coastal management.
- Implementing a coastal and ocean resource public education program.

2735 - COASTAL ENERGY PROGRAM

The Coastal Energy Program addresses coastal energy issues including, but not limited to, offshore oil and gas development, electricity generating power plant expansion and development, and siting and development of liquefied natural gas facilities.

9900100 - ADMINISTRATION

The objective of the Administration Program is to provide administrative support including accounting, budgeting, business services, support services, information technology, and human resources services to other departmental programs.

3760 State Coastal Conservancy

The State Coastal Conservancy develops and implements projects that protect, restore and enhance natural, recreational, and economic resources along California's coast, coastal watersheds, the ocean, and within the San Francisco Bay Area. Through direct funding and grants to local agencies and nonprofit organizations, the Coastal Conservancy supports the following projects:

- Protect and enhance the natural environment, agricultural lands, scenic lands and urban waterfronts along the Coast and around San Francisco Bay.
- Increase public access to the coast and San Francisco Bay, build trails and increase outdoor recreational opportunities.
- Support education programs about coastal resources for kindergarten through grade 12.
- Prepare for and reduce the unavoidable impacts of climate change on the coastal region and San Francisco Bay Area.

The 2015-16 Governor's Budget proposes that most appropriations for State Coastal Conservancy be budgeted as Local Assistance for three year encumbrance periods, reflecting majority of expenditures under this category. Funds were formerly appropriated as Capital Outlay. This change in character of appropriation more accurately reflects expenditure as most of the funds are granted to local governments, nonprofits and other partners. Funds will continue to be available for both Local Assistance and Capital Outlay.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the State Coastal Conservancy's Capital Outlay Program, see "Infrastructure Overview."

LEGAL CITATIONS AND AUTHORITY

DEPARTMENT AUTHORITY

Public Resources Code Division 21, Section 31000 et seq.

PROGRAM AUTHORITY

2790-Coastal Conservancy Program:

Public Resources Code Sections 31150-31156, 31160-31164, 31200-31215, 31220, 31251-31270, 31300-31315, 31350-31356, and 31400-31409.

MAJOR PROGRAM CHANGES

- Local Coastal Programs-The Budget includes \$3 million Proposition 40, available over a three year period, to provide grants to assist local governments with development of Local Coastal Programs. Local Coastal Programs are basic planning tools used by local governments to guide development in the coastal zone in accordance with the Coastal Act.

PROGRAM DESCRIPTIONS

2790 - COASTAL CONSERVANCY PROGRAM

The Coastal Conservancy seeks to achieve the following goals:

- Protect and enhance habitats, wetlands, scenic open space, working lands and urban waterfronts along the California coast and around San Francisco Bay.
- Increase public access to the coast and outdoor recreational opportunities by creating new parks, trails and recreational amenities.
- Support education programs about coastal resources for kindergarten through grade 12.
- Prepare for and reduce the unavoidable impacts of climate change on the coastal region and San Francisco Bay Area.

INFRASTRUCTURE OVERVIEW

The State Coastal Conservancy grants funds to local governments, nonprofits and other project partners for the acquisition of land and easements, and the development of public facilities, to implement the State's Coastal Management Program. The Conservancy has participated in the protection of more than 390,000 acres of coastal lands through acquisition of fee title and conservation easements. The Conservancy has helped restore more than 33,000 acres of habitat.

Through its projects, the Conservancy has established 200 new coastal accessways and built more than 210 miles of new trails.

3780 Native American Heritage Commission

The California Native American Heritage Commission is the state's "trustee agency" for the protection and preservation of Native American cultural resources, sacred sites on public land and Native American burial sites. The Commission facilitates consultation between California tribal governments, Indian organizations and tribal elders with local, state, and federal agencies.

3790 Department of Parks and Recreation

The mission of the California Department of Parks and Recreation (Parks) is to provide for the health, inspiration, and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural, cultural and historical resources, and creating opportunities for high-quality outdoor recreation for current and future generations to enjoy. With increased urbanization, the establishment of park units and recreation areas accessible to the major population centers of the state has become particularly important. Specific activities include stewardship of natural resources, historic, cultural and archeological sites, artifacts and structures, provision of interpretive services for park visitors, construction and maintenance of campsites, trails, visitor centers, museums, and infrastructure such as roads and water systems, and creation of recreational opportunities such as hiking, bicycling, fishing, swimming, horseback riding, jogging, camping, picnicking, and off-highway vehicle recreation. In addition, the Division of Boating and Waterways funds, plans, and develops boating facilities on waterways throughout California and ensures safe boating for the public by providing financial aid and training to local law enforcement agencies.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Parks and Recreation's Capital Outlay Program, see "Infrastructure Overview."

INFRASTRUCTURE OVERVIEW

The system consists of 279 parks, beaches, trails, wildlife areas, open spaces, off-highway vehicle areas, and historic sites. Parks is responsible for approximately 1.6 million acres of land, including over 339 miles of coastline, 974 miles of lake, reservoir and river frontage, approximately 15,000 campsites and alternative camping facilities, and 4,456 miles of non-motorized trails.

Over the past five years Parks has expended approximately \$122 million to develop and expand the state park system. Parks has accepted gifts and other donations of property and historic structures at no cost to the state when those donations make programmatic sense.

3810 Santa Monica Mountains Conservancy

The Santa Monica Mountains Conservancy acquires, restores, and consolidates lands in the Santa Monica Mountains, Rim of the Valley Trail Corridor, Upper Los Angeles River Watershed, and watersheds of Santa Monica Bay for park, recreation, and conservation purposes. The Conservancy may:

- Lease, rent, sell, transfer, or exchange lands for park purposes.
- Award grants or interest free loans to state and local agencies to purchase or restore park, recreation, conservation, or buffer-zone areas to ensure that the character and intensity of development on these lands is generally compatible with and does not adversely impact the environment.
- Implement programs to improve access from the inner city areas surrounding the Conservancy, thereby providing recreational opportunities for all residents.
- Manage the Rim of the Valley Trail Corridor recreational trail.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Santa Monica Mountains Conservancy's Capital Outlay Program, see "Infrastructure Overview."

INFRASTRUCTURE OVERVIEW

Since its creation in 1979, the Santa Monica Mountains Conservancy has helped to protect, either through direct acquisition or local assistance grants, more than 72,000 acres of open space in the Santa Monica Mountains and Rim of the Valley Trail Corridor Region, and in the Upper Los Angeles River Watershed and watersheds of Santa Monica Bay.

3820 San Francisco Bay Conservation and Development Commission

The San Francisco Bay Conservation and Development Commission is a state planning and regulatory agency with regional authority. Its mission is to protect and enhance San Francisco Bay and to encourage the Bay's responsible and productive use for this and future generations. The Commission authored and maintains the San Francisco Bay Plan and relies on it, the McAteer-Petris Act, and other regulatory authority to maximize public access to the Bay and minimize Bay fill. The Commission issues permits for filling, dredging, and development projects within the Bay, along the Bay shoreline, and within salt ponds and certain managed wetlands adjacent to the Bay. The Commission also implements the Suisun Marsh Preservation Act of 1977. By state statute, the Commission develops and implements the federal Coastal Zone Management Act's program for the Bay and exercises authority over federal activities otherwise not subject to state control. The Commission leads the ongoing multi-agency regional effort to address the impacts of sea level rise and climate change on the Bay and its environs. Funding for these efforts to address climate change is derived mainly from federal grants and other agreements, contracts, and reimbursements.

3825 San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy

Established in 1999, the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy's mission is to acquire and manage public lands to provide open space, low-impact recreational uses, educational uses, water conservation and watershed improvement, wildlife and habitat restoration and protection, and preserve the San Gabriel Mountains and the San Gabriel and Lower Los Angeles Rivers, and their tributaries, consistent with existing and adopted river and flood control projects for the protection of life and property.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy's Capital Outlay Program, see "Infrastructure Overview."

3830 San Joaquin River Conservancy

The mission of the San Joaquin River Conservancy is to acquire, preserve, manage, and promote access to lands within the flood plain on both sides of the San Joaquin River from Friant Dam to Highway 99.

Specific activities are to:

- Implement the San Joaquin River Parkway Master Plan, a 22-mile regional greenspace and wildlife corridor along both sides of the river extending from Friant Dam to Highway 99, with an interconnected trail system and recreational and educational features.
- Acquire approximately 5,900 acres from willing sellers.
- Operate and manage lands for public enjoyment consistent with the protection of natural resources.
- Protect, enhance, and restore riparian and riverine habitat and ecological diversity.
- Facilitate the development of the parkway, garner public support, and secure its future.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Joaquin River Conservancy's Capital Outlay Program, see "Infrastructure Overview."

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.
† Past year appropriations are net of subsequent budget adjustments.

INFRASTRUCTURE OVERVIEW

The Conservancy oversees 2,552 acres within the San Joaquin River Parkway for habitat conservation and restoration, public access and recreation opportunities, and cultural asset and historical resource preservation. Additional acquisitions are being evaluated, with the goal of securing 5,900 acres (some owned by partner entities) for conservation purposes. Planned infrastructure projects also include habitat enhancement, public access, recreation, outdoor education, and ancillary facilities.

3835 Baldwin Hills Conservancy

The Baldwin Hills Conservancy was established in 2000 to acquire open space and manage public lands within the Baldwin Hills area and to provide recreation, restoration, and protection of wildlife habitat for the public's enjoyment and educational experience.

Specific agency responsibilities are to:

- Approve the Baldwin Hills Park Master Plan
- Prioritize and implement acquisition of additional recreational and open space land for the expansion of Kenneth Hahn State Recreation Area
- Provide recreational, open space, wildlife habitat restoration and protection and lands for educational use within the area
- Conduct the necessary planning activities for the area
- Develop and coordinate a program of resource stewardship for optimum recreational and natural resource value based on the needs of the surrounding community
- Provide for the public's enjoyment, and to enhance the recreational and educational experience on public lands in a manner consistent with the protection of lands and resources in the area

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Baldwin Hills Conservancy's Capital Outlay Program, see 'Infrastructure Overview.'

INFRASTRUCTURE OVERVIEW

The Conservancy's territory includes a total of 1,427 acres of open space, the largest swath of contiguous unpaved land in the entire 127 square-mile Ballona Creek Watershed of Los Angeles County. Approximately 768 acres are currently protected. The Master Plan calls for the acquisition and development of existing park land as well as the remaining balance of privately held open space to implement the community-based vision for a two square-mile urban park and natural recreation area. Since its inception, the Conservancy's acquisition program has resulted in a 33 percent increase in public lands for the expansion of Kenneth Hahn State Recreation Area. Capital outlay projects are focused on public access, trails, habitat restoration, environmental awareness and parkland connectivity. A total of 23 local assistance projects have been completed with another 7 in the planning stages. The Park to Playa Trail, a ten mile contiguous pedestrian and bicycle pathway from the Parklands to the Pacific Coast, is a five-year priority project from the Master Plan that will deliver the first regional trail in Southwest Los Angeles County.

3840 Delta Protection Commission

The mission of the Delta Protection Commission is to adaptively protect, maintain, enhance and restore the overall quality of the Delta environment consistent with the Delta Protection Act, and the Land Use and Resource Management Plan for the Primary Zone. The goal of the Commission is to ensure orderly, balanced conservation and development of Delta land resources and improved flood protection. The Commission provides a forum for Delta residents to engage in decisions regarding actions to recognize and enhance the unique cultural, recreational, and agricultural resources of the Delta. The Commission identifies and makes recommendations on methods of preserving the Delta as an evolving place, and promotes Delta legacy communities, regional economic sustainability, and emergency response preparedness.

3845 San Diego River Conservancy

The mission of the San Diego River Conservancy is to achieve the goals of the San Diego River Conservancy Act by implementing five major programs: Land Conservation, Recreation and Education, Preserve Natural/Cultural Resources, Water Quality and Natural Flood Conveyance, and Organizational Capacity and Reach. This mission will be accomplished in part by building, with our partners, a San Diego River Park and hiking trail stretching from the headwaters in Julian to the Pacific Ocean. These programs foster collaboration among governments and nonprofit organizations, and leverage grant funding to achieve an array of conservation objectives.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Diego River Conservancy's Capital Outlay Program, see "Infrastructure Overview."

INFRASTRUCTURE OVERVIEW

The San Diego River Conservancy completed its Five Year Strategic Plan Update for 2012-2017 and has completed a capital outlay plan to implement each of the Conservancy's five major programs: Land Conservation, Recreation and Education, Preserve Natural and Cultural Resources, Water Quality and Natural Flood Conveyance, and Organizational Capacity and Reach; and achieve the goals of the San Diego River Conservancy Act.

3850 Coachella Valley Mountains Conservancy

The mission of the Coachella Valley Mountains Conservancy is to acquire and hold as open space mountainous lands surrounding the Coachella Valley and natural community conservation lands within the Coachella Valley. The Conservancy also provides for the protection of wildlife and the enhancement of recreational and educational experiences on those lands.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Coachella Valley Mountains Conservancy's Capital Outlay Program, see "Infrastructure Overview."

INFRASTRUCTURE OVERVIEW

The Conservancy has acquired 4,659 acres within the Coachella Valley and the Santa Rosa and San Jacinto Mountains for the public's enjoyment and for use consistent with the protection of biological, cultural, hydrological, recreational, scenic, and educational resources of statewide significance. In addition, the Conservancy has assisted in the acquisition of an additional 81,000 acres by other public agencies or nonprofit organizations through local assistance grants, partnership acquisitions and facilitated transactions (in which the Conservancy has provided no funds, but arranged for the acquisition by another entity). The Conservancy's five-year infrastructure plan calls for the acquisition of an additional 13,900 acres in that period, or an average of 2,780 acres per year. All acquisitions are consistent with, and implement, the Coachella Valley Multiple Species Habitat Conservation Plan/Natural Community Conservation Plan, the California Water Action Plan and the Conservancy's Acquisition Priorities as revised in November 2013.

3855 Sierra Nevada Conservancy

The Sierra Nevada Conservancy's mission is to initiate, encourage, and support efforts that improve the environmental, economic and social well-being of the Sierra Nevada Region, its communities and the citizens of California. The Conservancy achieves its mission through the awarding of grants and loans, development of projects and programs, providing technical assistance and assisting in collaborative efforts with a broad array of governmental and non-governmental partners.

PROGRAM DESCRIPTIONS

3220 - SIERRA NEVADA CONSERVANCY PROGRAM

Established pursuant to Chapter 726, Statutes of 2004, the Conservancy is authorized to:

- Provide increased opportunities for tourism and recreation;
- Protect, conserve, and restore the region's physical, cultural, archaeological, historical, and living resources;
- Aid in the preservation of working landscapes;
- Reduce the risk of natural disasters, such as wildfires;
- Protect and improve water and air quality;
- Assist the regional economy through the operation of the Conservancy's program;
- Undertake efforts to enhance public use and enjoyment of lands owned by the public.

In support of these programs, the Conservancy facilitates collaborative planning efforts with local and regional governments, community groups and interested parties, provides technical assistance and initiates and funds projects to identify and fill critical needs in the Sierra Nevada region.

3860 Department of Water Resources

The Department of Water Resources protects, conserves, develops, and manages California's water. The Department evaluates existing water resources, forecasts future water needs and explores future potential solutions to meet ever-growing needs for personal use, irrigation, industry, recreation, power generation, and fish and wildlife. The Department also works to prevent and minimize flood damage, ensure the safety of dams, and educate the public about the importance of water and its efficient use.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Water Resources' Capital Outlay Program, see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- **Water Bond**-The Budget includes \$86 million Proposition 1 to implement the DWR's responsibilities under the Water, Quality, Supply, and Infrastructure Act of 2014, which include grant administration for integrated regional water management, water recycling, groundwater sustainability, and water conservation programs as well as implementation of statewide water system operational improvement and drought preparedness actions.
- **FloodSAFE**-The Budget includes \$398.5 million Proposition 1E to support the FloodSAFE California program. FloodSAFE is an integrated systemwide approach to flood management. This proposal along with its accompanying capital outlay proposals will appropriate all remaining Proposition 1E funds.
- **Water Action Plan**-The Budget includes \$1.4 million General Fund and \$6.8 million other funds to carry out various objectives of the California Water Action Plan. These proposals include resources to prepare for critically dry periods, facilitate stormwater flood management, expand integrated regional water management program delivery, and implement Sacramento Valley water management and habitat protection projects.
- **Groundwater Sustainability Act**-The Budget includes \$6 million General Fund to implement specific requirements of the Groundwater Sustainability Act, such as the adoption of basin boundaries, development of regulations on best groundwater management practices, and provide additional technical assistance to local groundwater management agencies on the development of the groundwater sustainability plans.

PROGRAM DESCRIPTIONS

3230 - CONTINUING FORMULATION OF THE CALIFORNIA WATER PLAN

The California Water Plan is the state's strategic plan for the efficient use, management and development of the state's water resources. The Plan is updated every five years and provides a framework for water managers, legislators, and the public to consider options and make decisions regarding California's water future. The Plan evaluates current and future water conditions, challenges and opportunities. It presents basic data and information on California's water resources including water supply evaluations and assessments of existing and future agricultural, urban, and environmental water uses. The Plan identifies and evaluates multiple future scenarios and nearly 30 resource management strategies such as conservation, recycling, desalination, transfers, storage, conveyance, quality, watershed management, ecosystem restoration, and urban land use management to help meet future demands in light of uncertainties and unexpected catastrophic events. This program also identifies ways for the state to: (1) help local agencies and governments prepare integrated regional water management plans on a watershed basis and diversify their regional water portfolios to ensure sustainable water uses, reliable water supplies, better water quality, environmental stewardship, efficient urban development, protection of agriculture, and a strong economy, (2) help cities, counties and local agencies prepare a Water Element for their General Plans, Urban Water Management Plans and Agricultural Water Management Plans, and (3) help local agencies and governments improve coordination between water and land use planning.

3240 - IMPLEMENTATION OF THE STATE WATER RESOURCES DEVELOPMENT SYSTEM

The State Water Project is a water storage and delivery system that consists of 34 storage facilities, reservoirs and lakes, 20 pumping plants, 4 pumping-generating plants, 5 hydroelectric power plants, and over 700 miles of channels, canals and pipelines. The Project provides water to over 25 million Californians and 750,000 acres of irrigated farmland.

The Department plans, designs, constructs, operates, maintains, and manages State Water Project facilities which provide State Water Project water supply to a network of physical facilities located from Plumas County to the Mexican Border.

The Delta Habitat Conservation and Conveyance Program is charged with improving the Delta ecosystem and ensuring water supply reliability in a safe, timely, and cost effective manner. This includes development of the Bay Delta Conservation Plan, project specific conservation measures, and the Environmental Impact Report and Environmental Impact Statement.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

† Past year appropriations are net of subsequent budget adjustments.

3860 Department of Water Resources - Continued

3245 - PUBLIC SAFETY AND PREVENTION OF DAMAGE

This program protects life and property from damage by floods, ensures proper construction and maintenance of jurisdictional dams and levees, and provides funding for the construction. Activities include assessing the state and regional investment needs to reduce risk, preventive floodplain management to discourage unwise use of areas subject to flooding, protection of floodplains, issuance of flood warnings, operation of flood control facilities, coordination and supervision of flood fight activities, and annual levee and flood channel maintenance and inspection in cooperation with other local, state, and federal partner agencies. This program also buys land, easements, and rights-of-way for federal flood control projects and supervises the design and construction of new dams and periodic inspection and reevaluation of all existing jurisdictional dams for proper operation and maintenance. Fiscal oversight and coordination activities associated with the Disaster Preparedness and Flood Prevention Bond Act of 2006 are administered under this program. The program also reviews federal dam projects in coordination with federal and other state agencies with regard to dam safety.

3250 - CENTRAL VALLEY FLOOD PROTECTION BOARD

The Central Valley Flood Protection Board has regulatory authority over the State Plan of Flood Control facilities (SPPC), designated floodways and regulated streams in the Central Valley. The Board regulates encroachments on the system by issuing permits and initiating enforcement action when necessary to maintain the integrity of the levees and floodways that protect the valley's people and property. The Board services as the non-federal sponsor to the United States Army Corps of Engineers on large joint state-federal levee improvement projects and assists the more than one hundred local maintaining agencies that operate and maintain the SPFC, The Board conducts regular public meetings, hearings, workshops and tours, providing a public forum for stakeholders.

3255 - SERVICES

This program provides technical support within the Department and expertise in the fields of water resources planning, development and management; watermaster services; scientific analyses performed by DWR's chemical laboratory; information technology; and mapping, surveying and engineering services for other agencies.

3260 - CALIFORNIA ENERGY RESOURCES SCHEDULING

For a limited period of time, this program purchased electric power on behalf of the state's investor-owned utilities. Beginning January 1, 2003, the utility companies resumed responsibility for purchasing power from the spot market. The utilities, however, continue to receive power from the Department's long-term energy contracts with energy suppliers, under which the Department retains legal and financial responsibility. Additionally, the Department retains the legal and financial responsibility for administering \$7.128 billion in revenue bonds issued to repay the General Fund for money borrowed for power purchases during the energy crisis and funding of reserve accounts necessary to maintain an investment grade credit rating associated with the revenue bonds.

INFRASTRUCTURE OVERVIEW

The Department of Water Resources has two major infrastructure programs: the State Water Project and the flood control system in the Central Valley. The State Water Project is a water storage and delivery system that consists of 34 storage facilities, reservoirs, and lakes, 20 pumping plants, 4 pumping-generating plants, 5 hydroelectric power plants, and over 700 miles of channels, canals and pipelines. The Project provides water to 25 million Californians and 750,000 acres of irrigated farmland. The Project also provides recreational opportunities to approximately 6 million visitors annually at 15 separate reservoir-based recreation facilities as well as public fishing access at designated locations on the California Aqueduct. Existing flood control infrastructure in the Central Valley consists of 1,595 miles of levees, 348,000 acres of channels and floodways, over 800,000 linear feet of bank protection, over 60 mitigation and environmental restoration sites, and 55 various flood control structures including dams, weirs, pumping plants, diversion structures, gate structures, and drop structures. In general, these facilities provide more flood protection in urbanized areas and less in agricultural areas.

MAJOR PROJECT CHANGES

- Flood Projects-The Budget includes \$686 million Proposition 1E to improve flood protection. This proposal will focus expenditures on urban, rural, and systemwide projects. Allocation of Proposition 1E funds will align with recommendations of the Central Valley Flood Protection Plan for prioritizing flood management projects. This proposal along with its accompanying support proposal will appropriate all remaining Proposition 1E funds.

SUMMARY OF PROJECTS

3875 Sacramento-San Joaquin Delta Conservancy

The mission of the Sacramento-San Joaquin Delta Conservancy is to support efforts that advance both environmental protection and the economic well-being of Delta residents in a complementary manner. The Conservancy's activities include protecting and enhancing habitat and habitat restoration; protecting and preserving Delta agriculture and working landscapes; providing increased opportunities for tourism and recreation; promoting Delta legacy communities and economic vitality in the Delta; increasing the resilience of the Delta to the effects of natural disasters such as floods and earthquakes; protecting and improving water quality; assisting the Delta regional economy; identifying priority projects and initiatives for which funding is needed; conducting activities to protect, conserve, and restore the region's physical, agricultural, cultural, historical, and living resources; assisting local entities in the implementation of their habitat conservation plans and natural community conservation plans; facilitating protection and safe harbor agreements under the federal Endangered Species Act of 1973 and the California Endangered Species Act for adjacent land owners and local public agencies; and promoting environmental education. The Conservancy acts as the primary state agency to implement ecosystem restoration in the Delta and supports efforts that advance environmental protection and the economic well-being of the Delta residents.

3885 Delta Stewardship Council

Established in 2009 by the Delta Reform Act, the mission of the Delta Stewardship Council, through a seven-member board, is to further the state's coequal goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Sacramento-San Joaquin Delta ecosystem. The coequal goals are to be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta. In 2013, the Council adopted a legally enforceable Delta Plan to further the coequal goals and guide state and local agency activities related to the Delta. Under state law agencies are required to coordinate their actions pursuant to the Delta Plan with the Council and the other relevant agencies. The Council is informed by scientific input from the Delta Science Program and the Delta Independent Science Board. The mission of the Delta Science Program is to provide the best possible unbiased scientific information to inform water and environmental decisionmaking in the Delta.

The Delta Stewardship Council is the successor to the California Bay-Delta Authority and CALFED Bay-Delta Program.
