

# Corrections and Rehabilitation

---

The mission of the California Department of Corrections and Rehabilitation (CDCR) is to enhance public safety through safe and secure incarceration of offenders, effective parole supervision, and rehabilitative strategies to successfully reintegrate offenders into our communities. The CDCR is organized into twelve programs: Corrections and Rehabilitation Administration; Corrections Standards Authority; Juvenile Operations; Juvenile Education, Vocations, and Offender Programs; Juvenile Parole Operations; Juvenile Health Care Services; Adult Operations; Adult Parole Operations; Board of Parole Hearings; Community Partnerships; Adult Education, Vocations, and Offender Programs; and Correctional Health Care Services. Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Corrections and Rehabilitation's Capital Outlay Program, see "Infrastructure Overview."

## MAJOR PROGRAM CHANGES

- **Adult Inmate and Parolee Population**-The average daily inmate population is projected to increase from 170,641 in 2008-09 to 171,778 in 2009-10, an increase of 1,137 inmates or 0.7 percent. The increase in adult inmate population is largely due to an increase in sentence length for new admissions from the court and a slight increase in parole violators with new terms and parole violators returned to custody. This increase is partially offset by a decrease in new admissions from the courts. The average daily parole population is projected to decrease from 122,872 in 2008-09 to 118,832 in 2009-10, a decrease of 4,040 parolees, or 3.3 percent. The decrease in the adult parole population is largely due to an increase in discharges from parole and a decrease in releases from prison to parole. The fiscal impact of the change in population in 2008-09 is an increase of \$23.8 million General Fund and an increase of \$412,000 other funds. In 2009-10 the fiscal impact is an increase of \$17.5 million General Fund and a decrease of \$427,000 other funds.
- **Juvenile Offender and Parolee Population**-The average daily population for juvenile facilities is expected to decrease from 1,786 in 2008-09 to 1,551 in 2009-10, a decrease of 235 juvenile offenders, or 13.2 percent. The average daily juvenile parole population is projected to decrease from 1,979 in 2008-09 to 1,774 in 2009-10, a decrease of 205 parolees, or 10.4 percent. The decrease in juvenile offenders and parolees is the result of shifting the responsibility for housing and supervising non-serious and non-violent juvenile offenders to local jurisdictions beginning September 1, 2007. The fiscal impact of the change in population in 2008-09 is an increase of \$3 million General Fund, a decrease of \$141,000 Proposition 98 General Fund, and a decrease of \$11,000 other funds. In 2009-10, the fiscal impact is a decrease of \$23.3 million General Fund, a decrease of \$2.7 million Proposition 98 General Fund, and a decrease of \$167,000 other funds.
- **Prison and Parole Reforms**-The Budget includes a decrease of \$9.6 million General Fund in 2008-09 and \$598.4 million General Fund in 2009-10 related to various prison and parole reforms as proposed by the Administration in the Special Session. This savings would be generated through enhanced credit earnings for inmates, including providing continuous day for day credits for inmates who are in jail pending transfer to a state prison and providing program credits for each program successfully completed by an eligible inmate, eliminating parole for non-serious, non-violent, and non-sex

offenders, and by adjusting the threshold value for property crimes to reflect inflation since 1982.

- New Special Fund for Substance Abuse Programs-The Budget includes \$219 million from the Drug and Alcohol Treatment and Prevention Fund to be used by the CDCR in place of General Fund to fund the Department's current substance abuse programs for both inmates and parolees.
- Juvenile Probation Funding-The Budget includes a reduction of \$63.3 million General Fund in 2008-09 and \$151.8 million General Fund in 2009-10 for local juvenile probation activities as proposed by the Administration in the Special Session. The reduction of General Fund resources is partially offset by a backfill of Vehicle Licensing Fee funds of \$38.2 million in 2008-09 and \$135.9 million in 2009-10, resulting in total funding of \$126.7 million in 2008-09 and \$135.9 million in 2009-10 for this purpose.
- Juvenile Camp Funding-The Budget proposes to eliminate funding to support juvenile camps and ranches beginning in February 2009 as proposed by the Administration in the Special Session. This results in General Fund savings of \$12.3 million General Fund in 2008-09 and \$29.4 million General Fund in 2009-10.
- Medical Services Budget-The Budget includes a ten percent unallocated reduction to the Receiver's Medical Services Program, which results in General Fund savings of \$180.8 million in 2009-10.
- Correctional Officer Overtime Adjustment-The Budget includes \$35.7 million General Fund in order to adjust the CDCR's overtime base to reflect prior increases in Correctional Officer pay.
- Division of Juvenile Justice Base Staffing Adjustment-The Budget includes a General Fund reduction of \$6.6 million which will be achieved by eliminating positions that are no longer necessary because of the decreasing juvenile population within DJJ facilities. These positions are not required by the Farrell v. Tilton lawsuit and will not impact the DJJ's ability to meet requirements of this lawsuit.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - CORRECTIONS AND REHABILITATION ADMINISTRATION

The objective of the Corrections and Rehabilitation Administration Program is to provide policy direction, accountability, administrative oversight, and support to ensure the overall success of all adult and juvenile correctional and rehabilitation programs. The program consists of the Office of the Secretary; Legislative Affairs; Public and Employee Communications; Internal Affairs; Victim and Survivor Rights Services; Office of Civil Rights; Project Management; COMPSTAT; Court Compliance; Support Services; Enterprise Information Services; Audits and Compliance; Labor Relations; Policy, Analysis and Planning; Research; Risk Management; Strategic Planning; Legal Affairs; and Ombudsman.

#### 15 - CORRECTIONS STANDARDS AUTHORITY

The Corrections Standards Authority (CSA) provides leadership in the development of programs and program planning efforts that focus on local juvenile and adult correctional effectiveness, administers federal and state grants that support the collaborative planning efforts, provides technical assistance and training in planning and program implementation, and conducts research and evaluations. This program sets minimum standards and assists local agencies in meeting these standards for juvenile and adult detention facilities, administers grant funds to maximize the protection of the public while assuring safety of detention staff and offenders in local custody, and is responsible for administering the Compliance Monitoring Program.

The CSA works with local corrections officials to ensure that when they perform complex tasks they engage the local corrections community in the establishment of minimum standards for personnel selection and training. The CSA is designated by the federal Department of Justice, Office of Juvenile Justice and Delinquency Prevention, as the responsible state planning agency to administer federal juvenile justice and delinquency prevention funds designated for California.

Within state corrections, the CSA develops and approves minimum selection and training standards for 47 state correctional peace officer classifications. The CSA also monitors departmental compliance with these standards.

The CSA also collaborates with state and local government agencies to administer state lease revenue funding awards authorized for county facility construction projects for the purpose of enhancing public safety and conditions of confinement.

#### 20 - JUVENILE OPERATIONS

The Department of Corrections and Rehabilitation accepts commitments from California courts provided that the person to be committed was under 18 years of age at the time the offense was committed, can materially benefit from institutional programs, and there are adequate facilities available to care for the individual.

The objectives of the Juvenile Operations program are to provide treatment programs to assist juvenile offenders in developing the necessary skills to successfully reintegrate back into their communities; to ensure the operation of safe and secure juvenile facilities; to perform tasks related to routine day-to-day operations of institutions and camps, and to provide juvenile offenders necessary services such as security, feeding, clothing, and facility operations.

Treatment programs begin by performing diagnostic studies, program assignment, objective setting and progress evaluation, and parole planning for each individual. Based on the results of this evaluation, various counseling and treatment programs are available, including substance abuse treatment programs, camp programs, and work employability programs.

In addition, this program provides for staff training, juvenile offender intake and court services, and population management services, performs facility maintenance, and maintains juvenile offender master files. This program currently oversees operations for six facilities and two conservation camps.

#### 21 - JUVENILE EDUCATION, VOCATIONS, AND OFFENDER PROGRAMS

The objective of the Juvenile Academic and Vocational Education program is to reduce the number of individuals who reoffend by providing basic academic education, vocational education, and treatment programs to help juvenile offenders develop acceptable socialization and employment skills.

Education programs for juveniles include core academic and career/technical preparation high school courses, general education development preparation, basic skills enhancement, and college preparation. All curriculum presented to students is infused with values-based character education. Supplemental services include library services, special education, English learner services, basic skills enhancement, high school credit work experience, and community service.

#### 22 - JUVENILE PAROLE OPERATIONS

The objective of the Juvenile Parole Operations program is to assist juveniles to successfully reintegrate into the community after release to parole. Parole services staff implement structured and intensive parolee supervision through enforcement of conditions of parole, crisis intervention, supportive services, specialized services, intervention and corrective action sanctions. Other major parole services activities include transitional aftercare services for specific high-risk offenders, including mental health, sex offender and substance abuse services. Parole is involved from the point of commitment throughout release to parole. This includes involvement during detention within the facility in order to prepare for community integration and that involvement continues through community supervision once the youth has paroled into the community.

#### 23 - JUVENILE HEALTH CARE SERVICES

---

\* Dollars in thousands

## 5225 Department of Corrections and Rehabilitation - Continued

The mission of the Health Care Services program is to provide medical, dental and mental health care to the juvenile population statewide consistent with adopted standards for quality and scope of services within a custodial environment. The program strives to achieve this mission by providing cost-effective, timely, and competent care.

### 25 - ADULT OPERATIONS

The Department is statutorily required to accept convicted felons and civilly committed non-felon narcotic addicts who have been sentenced to imprisonment in a state correctional facility. The objective of the Adult Operations program is to provide safe and secure detention facilities to protect society from further criminal activities and to provide necessary services such as feeding, clothing, record keeping, inmate classification assessments, and employee training.

The Adult Operations program consists of 33 operating correctional institutions, 12 of which have reception centers. The program is responsible for 13 community correctional facilities, 6 California out-of-state correctional facilities, and 44 conservation camps, which perform public conservation projects including, but not limited to, forest fire prevention, watershed management, and soil conservation. Secure Reentry Program Facilities will also be managed by Adult Operations.

The program also includes a full continuum of evidence-based substance abuse treatment, including 39 in-prison therapeutic community substance abuse treatment programs in 22 institutions.

### 30 - ADULT PAROLE OPERATIONS

The primary objective of the Adult Parole Operations program, consistent with the need for public safety, is to increase the rate and degree of successful reintegration and release to society of offenders paroled from state prison. The program is responsible for providing direct supervision, surveillance and necessary apprehension of the state's parolee population. In addition, the program works in conjunction with the Adult Education and Vocations Programs, and will work with the Secure Reentry Program Facilities to provide offenders with direct support services (job placement, education, housing, etc.) and community referral services (substance abuse treatment, batterer's programs, etc). Parole services will link to Secure Reentry Program Facilities as part of Pre-Parole Development.

Standard and specialized caseloads and degree-of-supervision monitoring are determined by case factors related to the offender's propensity for violence, past criminal history, and current service needs. When required case assessments indicate, selected parolees will be placed in a higher supervision category intended to prevent, detect, or interrupt behavior likely to endanger the community. Case supervision, reassessment, and reclassification reviews based on parolee behavior and stability in the community are regularly scheduled.

The program utilizes a variety of rehabilitation and assistance programs designed to promote successful reintegration of parolees, while protecting public safety. These programs include, but are not limited to, the In-Custody Drug Treatment Program, Transitional Housing for Parolees, Parolee Services Centers, and Police and Corrections Teams. The program also includes a full continuum of transitional programs including evidence-based substance abuse treatment to prepare inmates for release on parole, and community-based continuing care upon parole. Parolees who did not receive in-prison treatment are also eligible for community based residential and outpatient treatment.

The Adult Parole Operations program also provides mental health services and treatment to parolees through the Department's Parole Outpatient Clinics. The objectives of treatment are to ensure public safety and to reduce recidivism through the stabilization and monitoring of the parolees' mental health issues. In keeping with statutory intent, providing treatment and services to parolees that facilitate their reintegration into the community and reduce recidivism has proven to be an effective strategy for reducing state costs.

### 35 - BOARD OF PAROLE HEARINGS

The objective of the Board of Parole Hearings is to promote public safety through parole processes and decisions that are fair, and to provide the required due process to inmates and wards throughout the hearing process.

For adult offenders, the Board is responsible for setting the terms and conditions of parole, conducting parole consideration hearings for eligible inmates serving life sentences and parolees charged with violating parole, issuing warrants, and determining whether parolees should be considered for discharge from parole. Hearings are also conducted for mentally disordered offenders, sexually violent predators, and serious offenders. In addition, at the Governor's request the Board investigates applications and forwards recommendations for pardons and commutations of sentence, including those involving the death penalty. It also has the discretion to recommend to the court that a prisoner be resentenced in situations calling for compassionate release.

For juvenile offenders, the Board is responsible for discharges of commitment, orders to parole and conditions thereof, revocation or suspension of parole, and disciplinary appeals.

### 40 - COMMUNITY PARTNERSHIPS

The objective of the Division of Community Partnerships is to develop meaningful collaborations and processes to promote shared responsibility for improving recidivism and community safety by establishing and expanding collaborative relationships with key stakeholders. These stakeholders include local law enforcement, local governments, faith-based and community organizations, and academic institutions. The Division is also charged with managing the following programs: Inmate Visitors and Religious Programs, Self-Help and Volunteer Programming, grants for faith-based and community organizations, and local government partnerships including the San Diego Reentry Initiative (SB 618).

## 5225 Department of Corrections and Rehabilitation - Continued

### 45 - ADULT EDUCATION, VOCATION, AND OFFENDER PROGRAMS

The objective of the Division of Education, Vocations, and Offender Programs is to contribute to public safety by designing and operating programs that enable offenders to successfully reenter society by addressing the deficits that led them to criminal behavior. It also ensures that departmental educational and vocational programs provide inmates with an opportunity for self-improvement through acquiring life skills and career training. It develops other evidence-based programming options for the correctional setting, such as cognitive behavioral skills.

The primary objective of the Division of Addiction and Recovery Services is to plan, develop, implement and monitor addiction and recovery services within the CDCR. The program's goal is to reduce recidivism and relapse and to promote pro-social behavior and successful reintegration of the offender. By achieving this goal, the Division promotes the protection of public safety.

The Division serves as the central point for substance abuse treatment and recovery programs development and coordination. It is the primary unit in the Department responsible for developing a departmental standard for evidence-based substance abuse treatment and recovery programs to ensure that offenders housed within the Department's facilities, and those supervised within the community, receive consistent, quality programs likely to impact the drug use and crime continuum. These programs include, but are not limited to, the In-Custody Substance Abuse Programs, the Drug Treatment Furloughs, the Female Offender Treatment Employment Program, the Parolee Substance Abuse Program, the Mandatory Residential Aftercare Programs (SB 1453 and Mandatory Conditions of Parole), the Parolee Services Network, and the Community-Based In-Custody Drug Treatment Program.

### 50 - ADULT HEALTH CARE SERVICES

The objective of the Correctional Health Care Services program is to provide medical, dental, and mental health care to the inmate population statewide consistent with adopted standards for quality and scope of services within a custodial environment. The program strives to achieve this mission by providing cost-effective, timely, and competent care. Additionally, the program promotes inmate responsibility for their health.

The program currently operates 3 licensed hospitals and a skilled nursing facility for female inmates. The program also operates 16 Correctional Treatment Centers (CTC). In addition, the Department operates a hospice care wing at the California Medical Facility and 8 HIV units at various institutions.

### INFRASTRUCTURE OVERVIEW

The California Department of Corrections and Rehabilitation (CDCR) operates 39 youth and adult correctional facilities, 44 camps, and 5 adult prisoner/mother facilities. In addition, the CDCR contracts for 19 adult parolee service centers and 13 adult community correctional facilities, and leases beds at 3 county jails. The CDCR also operates 198 youth and adult parole units and sub-units, 4 parole outpatient clinics, and 1 correctional training center. In addition, the CDCR has 9 regional accounting offices and leases almost two million square feet of office space.

The CDCR operates 4 licensed general acute care hospitals, 1 licensed skilled nursing facility, 1 hospice program for the terminally ill, 16 licensed correctional treatment centers, 5 hemodialysis clinics, and outpatient housing units at most correctional facilities.

The CDCR's infrastructure includes more than 42 million square feet of building space on more than 27,000 acres of land (42 square miles) statewide.

### MAJOR PROJECT CHANGES

- The Governor's Budget proposes \$42.6 million General Fund for thirteen continuing projects. This amount includes \$7.1 million for three mental health projects in response to the Coleman court, \$10.9 million for water and wastewater projects at the California Rehabilitation Center, Mule Creek State Prison, and Sierra Conservation Center, \$6.4 million for two cell front conversions projects to improve security at the Correctional Training Facility and the Deuel Vocational Institution, and \$11.3 million for health and safety projects and to improve housing conditions at the California Institution for Men, Ironwood State Prison and the California Rehabilitation Center. This amount also includes \$6.9 million for minor projects and budget packages.
- The Governor's Budget proposes \$5.2 million General Fund for two new projects. This amount includes \$5 million to conduct preliminary studies and to acquire real estate purchase options for Reentry sites statewide, and \$231,000 for a cell front conversion project to improve security at Folsom State Prison.
