Department of Corrections and Rehabilitation 5225

The mission of the California Department of Corrections and Rehabilitation (CDCR) is to enhance public safety through safe and secure incarceration of offenders, effective parole supervision, and rehabilitative strategies to successfully reintegrate offenders into our communities.

The CDCR is organized into the following programs:

- Corrections and Rehabilitation Administration
- Corrections Standards Authority
- Juvenile: Operations and Offender Programs; Academic and Vocational Education; Parole Operations; Health Care
- Adult Corrections and Rehabilitation Operations: Security; Inmate Support; Contracted Facilities; Institution Administration Parole Operations: Adult Supervision; Adult Community Based Programs; Administration

- Board of Parole Hearings: Adult Hearings; Administration Adult: Education, Vocation, and Offender Programs: Education; Substance Abuse Program; Inmate Activities; Administration
- Adult Health Care Services

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Corrections and Rehabilitation's Capital Outlay Program, see "Infrastructure Overview."

MAJOR PROGRAM CHANGES

- Adult Inmate and Parolee Population-The average daily inmate population is projected to decrease from 163,799 in 2010-11 to 163,152 in 2011-12, a decrease of 647 inmates, or 0.4 percent. The decrease in the adult inmate population is primarily due to a decrease in parole violators returned to custody. The average daily parolee population is projected to decrease from 113,690 in 2010-11 to 107,002 in 2011-12, a decrease of 6,688 parolees, or 5.9 percent. The decrease in the adult parole population is primarily due to non-revocable parolees being discharged from parole. The fiscal impact of the changes in population in 2010-11 is an increase of \$108.3 million General Fund and an increase of \$171,000 other funds. In 2010-11 the fiscal impact is an increase of \$101.6 million General Fund and a decrease of \$88,000 other funds.
- Juvenile Ward and Parolee Population-The average daily ward population is projected to decrease from 1,304 in 2010-11 to 1,269 in 2011-12, a decrease of 35 wards, or 2.7 percent. The decrease in the ward population is primarily due to fewer new commitments. The average daily juvenile parolee population is projected to decrease from 1,554 in 2010-11 to 1,464 in 2011-12, a decrease of 90 parolees, or 5.8 percent. The decrease in the parole population is primarily due to fewer releases to parole as a result of the declining ward population. We note that the parole population projections do not account for the juvenile parole reforms that were included in the 2010 Budget Act that transferred responsibility for supervising wards released from the Division of Juvenile Justice to the counties beginning January 2011. The 2011 May Revision will include adjustments to reflect this policy change.
- Local Jurisdiction for Low Level Offenders-A decrease of \$485.8 million as a result of a proposed change in mission for
 the state prison system. Under the proposal, persons convicted of nonviolent, non-serious, non-sex offenses, and without
 any previous convictions for such offenses, would fall under local jurisdiction and the State would be responsible for
 inmates convicted of the most serious offenses. The savings amount includes a one-time reduction of \$150 million for
 rehabilitative programs, but this funding would be restored in 2012-13, after CDCR has reconfigured its program delivery
 model to accord with its changed population mix.
- Elimination of the Division of Juvenile Justice-A decrease of \$86.7 million, of which \$8.7 million is for Proposition 98, for
 the elimination of the Division of Juvenile Justice. The state currently houses about 1,300 wards, compared to about
 10,000 in the mid-1990s. The population continues to decline because of efforts by local jurisdictions to keep offenders
 locally, as well as statutory changes that prohibit counties from committing non-serious, nonviolent, and non-sex offenders
 to the Division.
- Structural Shortfall-The Budget includes \$395.2 million to reflect the true operational costs within CDCR's adult institution budgets. This augmentation will allow the Department to fully fund the salaries and wages of authorized Correctional Officers, Sergeants, and Lieutenants, operate a minimal level of swing space beds, restore erosions to the purchasing power of CDCR's base overtime funding, address health care guarding and transportation deficits, and fully fund the Office of Legal Affairs for the costs they incur related to settlements, judgments, and other court-ordered costs.
- Revised Receiver's Medical Services Program Savings- The 2010 Budget Act included a reduction to the Medical Services Program that would have achieved an estimated \$820 million in savings. However, the Receiver indicates that the Program will not be able to achieve this level of savings, and requested a restoration of \$726 million, reflecting a savings of only \$94 million of the \$820 million target.
- Reduction to Receiver's Medical Services Program Budget-The Budget includes a reduction of \$82.6 million in 2010-11 and \$163.2 million in 2011-12 to the Receiver's Medical Services Program, which represents five-percent and ten-percent reductions, respectively. Through administrative actions and statutory changes, the Receiver has implemented various measures that have led to some savings, but the Medical Services Program continues to be costly, at about \$11,000 per inmate annually. The proposed reductions could be achieved through other cost-savings measures.
- Community Corrections Performance Incentive Grants-The Budget includes \$59.2 million for the California Community
 Corrections Performance Incentive Act of 2009 (SB 678). SB 678 established a system of performance-based funding
 that shares state General Fund savings with county probation departments when they demonstrate success in reducing
 the number of adult felony probationers going to state prison because of committing new crimes or violating the terms of
 probation.
- California Institution for Women Mental Health Beds-The Budget provides \$1.5 million in 2010-11 and \$10.1 million in 2011-12 for CDCR's Mental Health Program for the operation of 45 licensed intermediate care and acute level beds at the California Institution for Women. This is the Administration's first step to demonstrate to the Coleman v. Schwarzenegger Court that CDCR is committed to and capable of providing inpatient treatment. This responsibility currently resides with the Department of Mental Health, but given court pressure and CDCR's goal of taking over the operation of these types of beds, these resources are critical to CDCR's success.
- Pre-Activation and Administrative Activities for Projects Authorized by Assembly Bill 900-Assembly Bill 900 (Chapter 7, Statutes of 2007), the Public Safety and Offender Rehabilitation Services Act, authorized funding for various construction projects. The Budget includes approximately \$11.7 million for pre-activation and administrative activities to support the following projects: 1) 64 Intermediate Care Facility beds at California Medical Facility; 2) 50 Mental Health Crisis Beds at California Men's Colony; 3) 1,000 Infill Beds at Estrella; and, 4) 1,722 Beds at the Correctional Health Care Facility.

^{*} Dollars in thousands, except in Salary Range.

These resources are critical to ensure that the facilities are licensed and operational once construction is complete.

 Receiver Medication Management-The Budget includes \$11.9 million on a two-year limited-term basis to provide additional nursing staff to ensure that medication is delivered to inmates in a timely manner without the use of more expensive registry and overtime.

PROGRAM DESCRIPTIONS

10 - CORRECTIONS AND REHABILITATION ADMINISTRATION

The objective of the Corrections and Rehabilitation Administration program is to provide policy direction, accountability, administrative oversight, and support to ensure the overall success of all adult and juvenile correctional and rehabilitation programs. The program consists of the Office of the Secretary; Legislative Affairs; Public and Employee Communications; Internal Affairs; Victim and Survivor Rights and Services; Office of Civil Rights; Support Services; Enterprise Information Services; Audits and Court Compliance; Labor Relations; Policy, Analysis and Planning; Research; Legal Affairs; Leasing and Facility Management and Ombudsman.

15 - CORRECTIONS STANDARDS AUTHORITY

The Corrections Standards Authority (CSA) provides leadership in the development of programs and program planning efforts that focus on local juvenile and adult correctional effectiveness. In addition, the CSA administers federal and state grants that support collaborative planning efforts and provide funding for county facility construction projects for the purpose of enhancing public safety and conditions of confinement, provides technical assistance and training in planning and program implementation, and conducts research and evaluations. The CSA also sets minimum standards and assists local agencies in meeting these standards for juvenile and adult detention facilities, administers grant funds to maximize the protection of the public while assuring safety of detention staff and offenders in local custody, and is responsible for administering the Compliance Monitoring Program.

The CSA works with local corrections officials to ensure the performance of complex tasks by local corrections professionals, engages the local corrections community in the establishment of minimum standards for personnel selection and training, and is designated by the federal Department of Justice, Office of Juvenile Justice and Delinquency Prevention, as the responsible state planning agency to administer federal juvenile justice and delinquency prevention funds designated for California.

20 - JUVENILE OPERATIONS AND JUVENILE OFFENDER PROGRAMS

The California Department of Corrections and Rehabilitation (CDCR) accepts commitments from California courts provided that the person to be committed was under 18 years of age at the time the offense was committed, can materially benefit from institutional programs, and there are adequate facilities available to care for the individual.

The objective of the Juvenile Operations program is to ensure the operation of safe and secure juvenile facilities, to perform tasks related to routine day-to-day operations of institutions and camps, and to provide juvenile offenders necessary services such as security, feeding, clothing, and facility operations. In addition, this program provides staff training, juvenile offender intake and court services, population management services, and facility maintenance, and maintains juvenile offender master files. This program currently oversees operations for 5 facilities and 2 conservation camps.

Treatment programs begin by performing diagnostic studies, program assignment, objective setting and progress evaluation, and parole planning for each individual. Based on the results of this evaluation, various counseling and treatment programs are available, including mental health programs (i.e. intensive treatment, specialized counseling, sex offender treatment, special behavior treatment, correctional treatment centers, intermediate care facilities, and general population outpatient services), substance abuse treatment programs, camp programs, and work employability programs.

21 - JUVENILE ACADEMIC AND VOCATIONAL EDUCATION

The objective of the Juvenile Academic and Vocational Education program is to reduce the number of individuals who reoffend by providing basic academic education, vocational education, and treatment programs to help juvenile offenders develop acceptable socialization and employment skills.

Education programs for juveniles include core academic and career/technical preparation high school courses, general education development preparation, basic skills enhancement, and college preparation. All curriculum presented to students is infused with values-based character education. Supplemental services include library services, special education, English learner services, basic skills enhancement, high school credit work experience, and community service.

22 - JUVENILE PAROLE OPERATIONS

The objective of the Juvenile Parole Operations program is to assist juveniles to successfully reintegrate into the community after release to parole. Parole services staff implement structured and intensive parolee supervision through enforcement of conditions of parole, crisis intervention, supportive services, specialized services, intervention and corrective action, and temporary detention sanctions. Other major parole services activities include transitional aftercare services for specific high-risk offenders, including mental health, sex offender, and substance abuse services.

23 - JUVENILE HEALTH CARE SERVICES

The mission of the Juvenile Health Care Services program is to provide medical, dental, and mental health care to juveniles consistent with adopted standards for quality and scope of services within a custodial environment. The program strives to achieve this mission by providing cost-effective, timely, and competent care.

25 - ADULT CORRECTIONS AND REHABILITATION OPERATIONS - GENERAL SECURITY

The camps perform public conservation projects including, but not limited to, forest fire prevention, watershed management, and soil conservation.

28 - ADULT CORRECTIONS AND REHABILITATION OPERATIONS - CONTRACTED FACILITIES

30 - PAROLE OPERATIONS - ADULT SUPERVISION

The Parole Operations - Adult Supervision program has as its primary objective, consistent with the need for public safety, increasing the rate and degree of successful reintegration and release to society of offenders paroled from state prison. The program is responsible for providing direct supervision, surveillance, and necessary apprehension of the state's parolee population. The main components of supervision include Global Positioning System (GPS) monitoring and general caseload supervision.

Standard and specialized caseloads and the degree of supervised monitoring are determined by case factors related to the offender's propensity for violence, past criminal history, and current service needs. When case assessments indicate, parolees are placed in a higher supervision category intended to prevent, detect, or interrupt behavior likely to endanger the community. Case supervision, reassessment, and reclassification, based on parolee behavior and stability in the community are regularly scheduled.

The other integral program component is the Parole Planning and Placement Program which identifies parolee needs and matches them with state and local programs to ensure a successful transition into local communities.

31 - PAROLE OPERATIONS - ADULT COMMUNITY BASED PROGRAMS

Parole Operations - Adult Community Based Programs utilizes a variety of rehabilitation and assistance programs designed to promote successful reintegration of parolees, while protecting public safety. These programs include, but are not limited to, Drug Treatment, Transitional Housing for Parolees, Parolee Services Centers, and Police and Corrections Teams. The Program also includes a full continuum of transitional programs, including evidence-based substance abuse treatment, preparation for inmates released on parole, and community-based continuing care upon parole. Parolees who did not receive in-prison treatment are also eligible for community-based residential and outpatient treatment.

The Program also provides mental health services/treatment to parolees though the Department's Parole Outpatient Clinics. The objective of these services is to ensure public safety and to reduce recidivism through the stabilization and monitoring of the parolees' mental health issues.

32 - PAROLE OPERATIONS - ADULT ADMINISTRATION

The Parole Operations - Adult Administration programs work in conjunction with those in the field to ensure the safety of the public and parolees. In addition to the headquarters office, the Office of Training and Professional Development, the Sex Offender Management Board and SARATSO Review Committee, and the Office of Correctional Safety ensure that field personnel are properly trained, sex offender treatment and supervision policies mirror national standards, and field operations run smoothly.

Screenings are also conducted for mentally disordered offenders and sexually violent predators, and subsequent hearing referrals are made to the Department of Mental Health. In addition, at the Governor's request, the Board investigates applications and forwards recommendations for pardons and commutations of sentence, including those involving the death penalty. It also has the discretion to recommend to the court that a prisoner be re-sentenced in situations calling for compassionate release.
