

## 7920 State Teachers' Retirement System

The California State Teachers' Retirement System (CalSTRS) administers retirement benefits for 879,329 (as of June 30, 2014) active and retired educators in public schools from pre-kindergarten through the community college system in California. Benefits include retirement, disability, and survivor's retirement benefits.

CalSTRS is governed by the Teachers' Retirement Board. The California Constitution provides that the Teachers' Retirement Board has authority over the administration of the retirement system; therefore, while the budget data presented here is subject to a Budget Act appropriation, the proposed appropriations are not reviewed or approved by the Governor.

### PROGRAM DESCRIPTIONS

#### 6450 - SERVICE TO MEMBERS AND EMPLOYERS

CalSTRS is responsible for the determination and payment of benefits to members, retirees, and their beneficiaries, and for the distribution of information to all members, employers, and other interested groups. CalSTRS' Defined Benefit Program includes service retirement, benefits for survivors, and disability benefits. Basic retirement benefits are generally based upon three factors: age at retirement, years of service, and final compensation. The member may modify the basic allowance by selecting a joint and survivor annuity option to provide benefits for their beneficiary after the member dies. Generally, the payments of benefits are made within 30 days following the effective date of the member's retirement. A member's retirement benefits, benefits for survivors, and disability benefits are determined by statute and/or contract provisions.

Income to CalSTRS is derived from contributions from members and employing school districts, appropriations from the General Fund, and investment earnings (see 6300 - State Contributions to the State Teachers' Retirement System). The cost of administration is paid from the Teachers' Retirement Fund, as provided in Section 22304(a) of the Education Code.
